DESCRIPTORS	*Directories, *Government Libraries, *Libraries, *National Libraries, School Libraries, Special Libraries

ABSTRACT

This Roster of Federal Libraries represents an attempt by the Federal Library Committee to identify each of the more than 1,900 individual libraries serving the many departments, committees, agencies, courts, and other formal organizational entities in the Federal Government. They include six types: Presidential, national, general, academic, school, and special or technical. Part I of the three part roster is arranged, alphabetically, within the designated Branches of the Government, then by country, state and city. Part II provides a geographic arrangement, first by country alphabetically, then by state, city, department and bureau. Part III is a listing, alphabetically, by general subject category or type of library. Within the subjects the libraries are arranged by country, state, city, department and bureau. A descriptive explanation and index to contents precedes each of the three parts. A National Plan for Federal Library Statistics has been designed by the Federal Library Committee's Subcommittee on Statistical Prcgrams. It is scheduled for testing in fiscal year 1971 and implementation starting in fiscal year 1972. The Plan will permit accurate, annual identification of Federal libraries. Rosters, based upon information received, will be issued on a regular basis. (Author)

PREFACE

This Roster of Federal Libraries represents an attempt by the Federal Library Committee to identify each of the more than 1,900 individual libraries serving the many departments, committees, agencies, courts, and other formal organizational entities in the Federal Government. They include six types: Presidential, national, general, academic, school, and special or technical. It is the second listing issued by the Federal Library Committee.

A National Plan for Federal Library Statistics has been designed by the Federal Library Committee's Subcommittee on Statistical Programs. It is scheduled for testing in fiscal year 1971 and implementation starting in fiscal year 1972. The Plan will permit accurate, annual identification of Federal libraries. Rosters, based upon information received, will be issued on a regular basis.

Frank Kurt Cylke
Executive Secretary
Federal Library Committee

INTRODUCTION

Since addresses for this roster were obtained from various listings and sources, some current and some not, an attempt has been made to verify as many as possible. This, however, proved to be a more formidable task than anticipated due to the almost constant changes taking place within government agencies. Little progress could have been made without the generous assistance of librarians and administrative personnel in all Departments. We are grateful, in particular, to those individuals in the Air Force, Army, Navy and the United States Information Agency who contributed extensive lists of their respective libraries both within the Continental United States and overseas. We are also grateful to BSCP personnel who rendered editorial and typing assistance.

The roster is presented in three parts. Part I is arranged, alphabetically, within the designated Branches of the Government, then by country, state and city. Part II provides a geographic arrangement, first by country alphabetically, then by state, city, department and bureau. Part III is a listing, alphabetically, by general subject category or type of library. Within the subjects the libraries are arranged by country, state, city, department and bureau.

A descriptive explanation and index to contents precedes each of the three parts.

ROSTER OF FEDERAL LIBRARIES

CONTENTS

Part I - Agency	1-93
Part II - Geographic	97-187
Part III - Subject	191-282

ROSTER OF FEDERAL LIBRARIES

Part I - Agency

Arrangement is alphabetical by Agency, within the designated Branches of the United States Government, then by country, state and city. The libraries in the United States precede those located in foreign countries whenever an Agency includes both types.

ROSTER OF FEDERAL LIBRARIES

Part III - Subject

Listings are arranged in subject categories which are very general in nature. Within this alphabetical format libraries are listed first by country, then by state, city and agency. When only a few libraries are involved they are included, alphabetically, without any differentiation between United States and overseas. When a number of libraries are involved those overseas are separated from those in the United States.

INDEX
